\_\_\_ Treasure Hunters    \_\_\_ Kitchen Chemistry    \_\_\_ Wired!

\_\_\_ July 25 — 29    \_\_\_ Full Day    \_\_\_ Morning only    \_\_\_ Afternoon only

\_\_\_ Grossology    \_\_\_ Lego Mania & K'nex Kids    \_\_\_ H2O

## 2016 Weekly Themes

**Crazy Contraptions** ~ Engineers will explore the FUNdamental forces of motion and build flying machines, catapults, pulley systems, and marble runs using common everyday objects.

**Science & the Arts** ~ Discover a love of science through the visual arts, drama, music, and dance. See the world of science through artist's eyes. Dress for mess! Masterpieces will be showcased in our museum gallery throughout the week.

**Animal Planet** ~ Explore the circle of life by investigating tracks, scat, and habitats. Learn how to survive in the wild. Expect some surprise visitors with fur, feathers, and scales.

**Treasure Hunters** ~ Discover Earth's many treasures hidden underground. Learn how exploding volcanoes form new rocks. Pan for gemstones. You will dig this session with its many layers of fun.

**Kitchen Chemistry** ~ Learn simple recipes while exploring nutrition, chemistry, and food safety. Mix and Measure to compete for Top Chef in a final bake off.

**Wired!** ~ Get all charged up building with Snap Circuits. Create an electric car that runs with a real motor. See how things work by taking apart common household items.

**Grossology** ~ Get the scoop on blood, brains, snot, eyeballs, earwax, and everything gross. Includes beginner dissecting labs such as a sheep's brain. (based on books by Sylvia-Branzei)

**Lego Mania & K'nex Kids** ~ Creative builders will be inspired brick by brick. Design Teams must work together to solve creative engineering tasks using Legos and K'nex.

**H2O** ~ Make a splash learning about the power of water. Waterfalls, water wheels, water cycle, water resources, water filtration, water pressure... Nothing says summer fun better than WATER!

\*Some sessions will include guest speakers from our community.  
Contact us if you know of someone who may be interested in sharing at camp.

## Elementary Science Summer Camp

Exploring Elementary Science  
in Fun & Creative Ways.

Designed for Elementary Students K-5
